PROFESSIONAL SUMMARY

Junior AI tools developer with hands-on IT deployment experience across 6 City Bank PLC branches. Built and released **Seed Code CLI**, a multi-provider AI coding assistant backed by 987 passing tests, plus a unified AI chat web app. Studying Computer Science & Technology at Dhaka Polytechnic Institute; open to junior and internship roles.

TECHNICAL SKILLS

AI & LLM	LLM integration (multi-provider), tool calling, AI agent workflows, task orchestration, local models (Ollama), OpenRouter
Used in projects	Python, HTML, CSS, Supabase (database and authentication), API integration, Git, GitHub, GitHub Releases, VS Code, Vercel
Currently learning	TypeScript, Next.js, Node.js, Tailwind CSS, system design, agent and tool-calling layers around LLMs
Systems & IT	Windows OS installation and configuration, deployment testing, networking, troubleshooting
Linux & Privacy	Hands-on use of Kali Linux, Arch Linux and Tails (privacy-focused OS); familiar with Tor network access

PERSONAL PROJECTS | PUBLISHED UNDER MY OWN BRAND, EAGOX STUDIO

Seed Code CLI *v8.2.5*

seedcode-cli.vercel.app | GitHub

- AI command-line coding assistant with multi-provider LLM support and two modes: Chat Mode and Agent Mode.
- Agent Mode runs a plan, execute and verify loop with autonomous tool use, a project memory index and a permission panel.
- Released on GitHub with a Windows installer; the test suite stands at 987 passing tests.

Seed Code Chat *Web and Android*

seedcode-chat.vercel.app

- AI chat app giving access to multiple AI providers and models through one interface, built with Next.js, TypeScript and Tailwind CSS.

Dorkey *Typing speed test*

dorkey.vercel.app

- Free web typing test with live WPM, CPM, accuracy and error tracking, timed tests and a rank for each session.

IntLLM *Local AI*

intllm.vercel.app

- Continuous-learning environment built around local models that combines live information, memory and tools.

Also built: OneClickMC (Windows GUI Minecraft modpack installer, in development); Hmouse (webcam hand-gesture cursor control).

PROFESSIONAL EXPERIENCE

Junior System Deployment Engineer *Contract*

May 2026 – Oct 2026

TriTech Computers | Client: City Bank PLC | Contract covering 6 branches

- Installed and configured customized operating systems on computers across 6 City Bank PLC branches under a contract agreement, testing each machine to confirm a successful deployment.
- Connected deployed computers to the client's secure network environment and verified connectivity.
- Troubleshot setup issues during the rollout so machines were ready for use.

EDUCATION

Diploma in Engineering, Computer Science & Technology

Sept 2025 – Present

Dhaka Polytechnic Institute, Tejgaon, Dhaka | Currently in 3rd semester

Secondary School Certificate (SSC)

2025

Hashil Higher Secondary School, Mymensingh Board | GPA 4.72 / 5.00
